

Random UDS (Urine Drug Testing)

Jagannathan Neurosurgical Institute uses the company Millennium Health to pick up, drop off and process of all specimens obtained in our office for urine drug testing. **We DO NOT TEST SUBMITTED SPECIMENS IN OUR OFFICE.** The specimens are picked up by Millennium Health’s courier and delivered to their lab for testing. **Results are usually received by our office 24 hours after the submitted specimen is received by their lab.**

If you do not live in this area and are unable to travel to this office for random urine drug screening when our office notifies us, we can arrange for the random UDS to be done at

_____ instead. If you choose to have your random UDS done at another facility please be aware that **results are usually received by our office within 48-72 hours after specimen is submitted.**

Refer to our “Pain Medication Refill Policy” and be advised that it is the patient’s responsibility to notify this office in enough time to allow for a possible urine drug screen (done at random), processing of that specimen, results to be received by our office and the prescription to be mailed to you. Please refer to “Pain Agreement & Informed Consent for Opioid Therapy” # 12 for consequences of refusal to comply or positive results of illegal drugs and/or misuse of prescription medications.

Patients that legally utilize Medical Marijuana – patients that use medical marijuana **MUST** submit to UDS testing **EACH TIME** they require a pain medication prescription refill.

I have read the above information (or it has been read to me) and all of my relevant questions have been answered to my satisfaction.
